

SAMPLE RENDERING

**ArtBridge Kingston** is a planned initiative to wrap original art by local, emerging artists on the outward facing sides of the Greenkill Avenue Bridge on Broadway in the city of Kingston, New York.

The program will invite artists from Kingston and surrounding communities to submit their artwork through an open call for review by a curatorial panel comprised of local, Ulster country artists and art world professionals. 2-4 works of art will be selected for reproduction and exhibition on the bridge for up to six months beginning March, 2013.

**ArtBridge**, based in New York City, is now looking to replicate the organization's success by offering its public art program to communities, like Kingston and others in the Mid-Hudson Valley.
